Bachelor of Science – Accounting, San Jose State University

“Our strong commitment to your business is just the start.”

I joined Johanson & Yau in 2004 after completing a tax internship with the firm and graduating from college. I'm well-versed in assurance and tax services, but my primary focus is financial statement preparation. I value the opportunity to get to know my clients so that I'm better equipped to understand and service their unique business and financial needs.

I live in San Jose with my wife and two sons. We enjoy family hikes at Almaden Quicksilver County Park and driving over the hill for some beach time in Capitola.
